TOOLS / PLATFORMS	Vs-Code, Eclipse, Oracle, Anaconda, MS-Office
DATABASES	Sql

PROJECTS / OPEN-SOURCE

STONE PAPER SCISSOR | LINK   Html, Css, Js

- The game is designed for two players, one is you as a player and the other opponent is your computer.
- There will be simultaneous turns given to you and your computer, as soon as you choose one option for yourself ie. stone/paper/scissor your opponent will also strike at the same time.
- There is a rules section at the bottom, so as soon as you click on it, a pop-up will open and you need to write the basic rule of the game, and there is a close button to close the pop-up.

TO DO LIST | LINK

Interactive ToDo App using ReactJs,
User can (Add, Edit, Update, Delete, Toggle Tasks).
- The todo list is also saved at the Local storage of users once he update their ToDo list so that next time their updated list will be there.

HOME AUTOMATION USING ARDUINO

Description:- The main objective of home automation is to help handicapped and old aged people who will enable them to control home appliances using a smart android phone.
